

A Pictorial Guide to the Big Blue Poppies (Meconopsis) By Evelyn Stevens

This book is an illustrated guide to over 60 cultivars of big perennial blue poppies (*Meconopsis*). For each there are relevant colour photographs of the various stages in the annual development of the plants, together with a brief description of each. The book also has an account of the work of the Meconopsis Group over the past 15 years in categorising these cultivars, together with advice on their cultivation and propagation. Lists of gardens with good displays of the big perennial blue poppies and nurseries where they can be acquired are also provided. It is fully indexed and has a glossary of terms used in the descriptions.

Book Details

297 x 210mm, 96pp, 398 colour illustrations. ISBN 978-0-9562168-1-6, Dander Publishing, 2015
